SUMMARY

AI and frontend focused BCA student with hands-on experience using modern AI tools and building responsive web applications using React.js and Tailwind CSS. Familiar with prompt engineering, AI assisted workflows, and tools like ChatGPT, Claude, Perplexity, and GitHub Copilot. Strong understanding of modern JavaScript, component based architecture, and problem solving. Passionate about AI, automation, and building impactful real world products.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, Python (Basic)

Frameworks & Libraries: React.js, Tailwind CSS

Tools & Platforms: ChatGPT, Claude, Perplexity, GitHub Copilot, Git, VS Code

Core Strengths: Problem Solving, Communication, Self Learning

EDUCATION

Chameli Devi Group of Institutions
Bachelor of Computer Applications (BCA)

Indore, India
2023 – 2026

PROJECTS

ID Card Generator | *React.js, Tailwind CSS*

- Developed a dynamic web application to generate customizable ID cards in real time.
- Managed user input using React state and created a responsive UI with Tailwind CSS.

TEDx Website Clone | *React.js, Tailwind CSS*

- Built a pixel perfect and fully responsive clone of the TEDx website.
- Implemented structured navigation and a custom login page.

LANGUAGES

Hindi (Native), English (Intermediate)
